The power of songs

Ellie Fitzgerald

Founder

07793 845 182

ellie@sayitwithsongs.com

We've all got a song that takes us back to a time, a person, place or special moment in seconds...whether it's a love song, a dance floor classic, a heavy rock anthem or guilty pleasure...in just a few notes we are literally right there.

Then there's the song with the lyrics that mean so much... the lyrics that resonate, to help us through, give us strength or make us smile.

This is why I created Say it with Songs.

A range like no other that combines the sentiment of a greetings card, with the power of a song. Simply scan the code on the back with a smartphone camera to play the song instantly. From The Beatles to Beyoncé, Stevie Wonder to the Arctic Monkeys, this is the card they'll keep forever.

I officially launched Say it with Songs in 2020, after 25 years working in the music industry. I wanted to create something special that would connect (and reconnect) people through the power of music.

I'm passionate about the positive impact music can have on us all. That's why 10% of all our sales are donated to music therapy charity Nordoff Robbins, who provide vital support to people with life-limiting illnesses and disabilities.

@SayItWithSongs

@sayitwithsongscards

Signed, sealed, delivered... it's yours!

In the wise words of 'Montell Jordan'...

This is how we **do it**

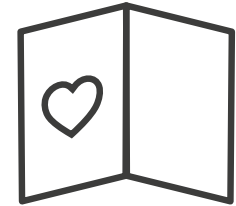

Say
it with
Songs.

1

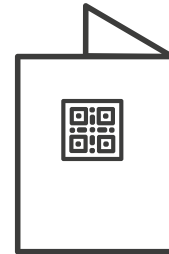

Every card features a song **lyric** on the front.

2

The inlay of every card includes a message that alerts the recipient to the **song link** on the reverse of the card and instructions on how to listen to the song.

3

The reverse of every card features a **scannable code** that enables the recipient to stream the entire song with a **smart phone**.

4

The recipient simply opens their **smart phone camera** and holds it over the code on the reverse of the card. This will automatically direct them to a page where they can stream the song in full at **no cost**.

5

Our range is compatible with Spotify, Amazon Music and YouTube. Listen to the song **as many times as you like**.

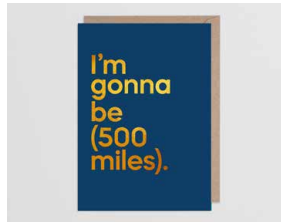

6

Non iPhone users may need to download a **QR reader** from the App store to access the song.

Say
it with
Songs.
