

EXCITING NEW PRODUCTS

Barrel Bird Nestbox

Our new and unique Barrel Bird Nester is not only an attractive addition to any garden it's also a perfect habitat for small wild birds - safe from predators with its deep cavity and locking lid.

Traditional Design

Following the success and popularity of our 'Barrel Nester' for bees - based on a traditionally coopered barrel shape, we have designed this Barrel Nester for birds to provide safe nesting and roosting opportunities for wild garden birds.

Hedgerows and trees are disappearing from the natural world and especially gardens, so now more than ever, it is important to provide safe habitats for our much loved yet dwindling species such as blue tits, great tits and sparrows.

Product Details

The barrel is built from FSC timber, and complete with steel hoops which will age naturally to give an authentic look. There is a removeable lid with locking screw to prevent predators, yet easy to open to clean annually in the late summer. Site the bird nester out of the prevailing wind, 1.5 to 3 metres high and facing between north and southeast.

Key Features...

Deep cavity and locking lid to prevent predators. Just release the screw on the side of the nester with a Philips screwdriver to access the central cavity for cleaning

Both the Barrel Bird Nester and Barrel Bee Nester make for fabulous gifts!
