*“The fingerprint jewellery  
created in your hands &  
finished in mine.”*

What is more personal than a fingerprint to keep that special someone close?

With this kit you can capture up to two fingerprints using Silver Clay.

Silver Clay is a magical material which combines recycled silver particles with a natural binder and transforms into solid silver after firing.

No moulds will be made and no casts will be copied.

The exact fingerprints that are captured, will become the jewellery that is treasured.
