

MR. SPOON THE CAT

MR. SPOON

THE CAT

PROBABLY THE BEST FRIEND A CAT COULD WANT

On the most magical night of the year, Mr. spoon arrives as an unexpected gift.

It takes inspiration from Brian Patterson's illustrations, to recreate the awe and wonder of a puppy in front of a Christmas tree.

Completely hand-embroidered, each Mr. Spoon expression is unique.

The fabric with which it was made is a wonderful tweed by Harris Tweed. The tweed was chosen for its resistance, its pleasantness to the touch and its incredible elegance.

Mr. Spoon's resistance over time has been personally tested by our cat Jonesy, who, in addition to be our quality control manager for all our toys, is also our constant source of inspiration.

We try during our work to produce as little waste as possible.

That's why Mr. Spoon's filling is made up of our scraps of fabric and wool.

These, before being inserted into the toys, are cut and carded to become a pleasantly soft padding.

The catnip is inserted along with the padding, distributed in such a way that Mr. Spoon is attractive to all parts of his body.

We use only what has been grown in our garden and dried in the traditional way, in a wooden dedicated house.

We like to think that we have created the first luxury toy for cats, with zero impact on the environment.

Mr. spoon is available in two versions: with red or blue pajamas and both available in the version with paws on the hips or on the tummy.

TWO COLORS, DOUBLE FUN!

THE PACKAGING

THE MOST ECO-SUSTAINABLE PACKAGING EVER

We love our planet and we don't like waste, that's why we thought of a type of packaging that can be reused in many other ways.

The fabric is pure linen and is hand embroidered.

Linen is both resistant and antibacterial, so this bag is suitable for holding both heavy objects or dry food.
