Luxury home fragrances inspired by Britain's most beautiful places...

The Home County Candle Co. is a luxury home fragrance brand, producing delightfully scented soy candles and reed diffusers inspired by, and named after, Britain's most beautiful places.

At the Home County Candle Co., we truly believe that each county has its own distinctive character and story to tell. We set out to bring these stories to life through unique scents, each truly inspired by the county it is named after.

We are so passionate about the abundance of outstanding natural beauty that we are lucky enough to enjoy in the UK, and so we are committed to producing sustainable products with minimal impact on the environment. Our candles are produced from natural soy wax, which is biodegradable, and vegan friendly, and all of our packaging is recyclable and sustainably sourced.

It is also important to us to support as many UK businesses as we can whilst manufacturing our products. We therefore take great care to select suppliers from exclusively within the UK for every aspect of our manufacturing process.

NATURAL SOY WAX CANDLES

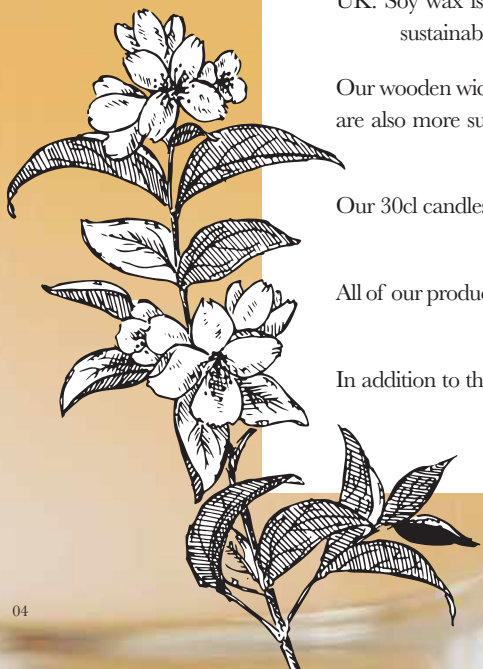

Our candles are produced using natural soy wax developed and manufactured in the UK. Soy wax is produced using pure soybean oil, which is a natural, 100% vegetable sustainable source. Our wax is therefore biodegradable and vegan friendly.

Our wooden wicks not only look fantastic and burn with a delightful crackling sound, but are also more sustainable long term than traditional cotton wicks, due to the pesticide-intensive process of cotton farming.

Our 30cl candles have a burn time of 45 hours and our 50cl 3-wick candles have a burn time of 75 hours.

All of our products come with a safety label to ensure that customers are well informed on the correct and sensible use of our products.

In addition to this, each of our candles comes with a candle care card, which details top tips for looking after your Home County Candle.

KEY SELLING POINTS

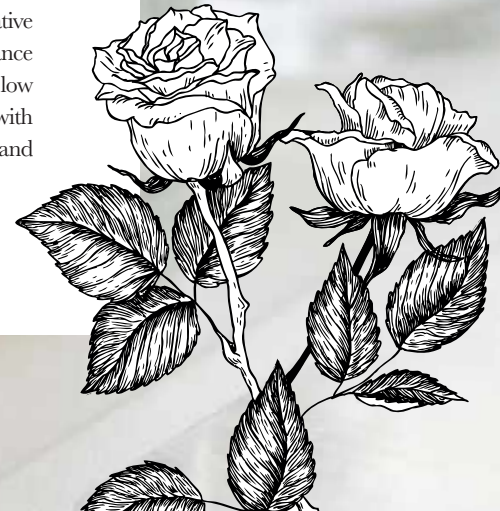

- Manufactured with soy wax and wooden wicks for a longer, cleaner and more environmentally-friendly burn
- Hand-poured in small batches to ensure the very best quality and even scent distribution for each product
- Scented with luxury fragrance oils, with each scent carefully selected to perfectly represent the county it is named after
- Wicked with wooden wicks which provide a lovely subtle crackle as they burn
- Produced using materials made within the UK
- Sustainably packaged in recyclable, plastic free packaging
- Vegan friendly

REED DIFFUSERS

Our luxury reed diffusers perfectly complement our soy candles. We use the same scents to create a beautiful set of home fragrance products.

All of our 100ml soy-based reed diffusers are made with only the very best fragrance oils and include innovative porex reeds, designed for high-performance fragrance throw. Produced using a soy-based solvent with low evaporation rate, our reed diffusers will fill a room with scent for 3-4 months and all come boxed in stylish and eco-friendly packaging.
