

OUR STORY & MISSION

Here at Kabloom, we make fun and innovative planet-friendly products. Designed for interaction, inspired by our relationship with nature in the urban environment.

The idea for Seedboms came from a desire to reconnect people with nature. We want to help people join forces for our planet, to create nature and colour for the benefit of everyone.

It was important to us to create an easy to use product that wasn't going to end up in landfill at the end of it's useful life. Seedboms are reborn into something new. All materials are **Recyclable, Biodegradable** and **Compostable**.

Yes the grenade shape is a little divisive, but there is a method to our madness! We are reclaiming this 'negative' shape and turning it into something positive. The grenade completely biodegrades into the soil (over a matter of weeks) and continues on with a second life; a rebirth through wildflowers.

Kabloom is a 1% for the Planet member and 10% of all Seedbom sales profits are donated to rewilding nature conservation projects in the UK

OUR MISSION

Bottle Farm is an award-winning grow-your-own hydroponics set. Our mission is simple. Get more people growing, and have a positive environmental impact. Bottle Farm products allow you to upcycle everyday objects and use them to grow food at home. By making growing fun and easy, we aim to encourage more people to start growing their own food. Originally launching on Kickstarter in 2020, and the campaign was 100% funded in under 24 hours - with over £85,000 of funding.

THE GROWABLE GREETINGS CARDS RANGE

Award-winning Greens & Greetings are the clever little zero waste gift that grows on-trend, tasty microgreens.

It is the perfect solution for the customer who is looking for something a little different, when a card alone just won't cut it. It is a card, gift, experience and snack in one. Simply add water to the enclosed coir soil, sprinkle the pea seeds on top, and pop the pouch on a windowsill to grow for about 2 weeks. Pea shoots are an attractive and nutritious garnish for just about any meal.

Each Greens & Greetings is a watertight pouch that becomes a plant pot, filled with everything needed to grow delicious frilly pea shoots in just 10-12 days.

The front features an attractive design and there's room on the reverse for the sender to write a message. They come with a high quality white envelope, and can be posted UK-wide with a large letter stamp.

Write your wishes, hopes or dreams on a wildflower 'wish paper' and watch your wishes bloom and grow in to beautiful UK Wildflowers.

Planting wildflowers adds natural beauty to windowsills or gardens and these nectar-rich plants help support dwindling populations of native pollinators such as butterflies, moths and bees,

Each Wildflower Wishes contains:

- 3 pretty 'wish papers' embedded with native UK wildflower seeds.
- 'Wish dust' containing chamomile, corn cockle, cornflower, marigold and poppy
- seeds and biodegradable glitter.
- A wooden plant marker.
- Planting instructions.
- A wildflower identification guide.
