# VAPPU

SAUNASSA

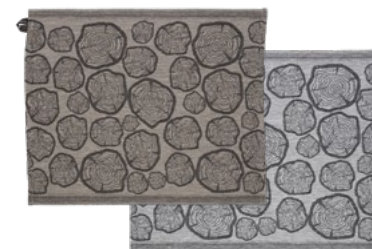

Vappu in the sauna collection reflects nature. The Pine design ("Mänty") shows trees that give me strength and annual rings equal their wisdom. Linen as a material symbolizes durability and quality, so does Jokipii's **100 years as a family business.**

Vappu tells: "Vappu in the Kitchen -design was inspired by Helsinki's old art nouveau building ornaments, which I admire on my morning runs. So stylish and timeless. I am so excited that these figures are now woven in linen, my absolute favourite material. Its durability and the fact that the material only improves in use is huge. I value Finnish workmanship and family businesses – Jokipiin Pellava embodies both these values!"
