TURNAGAIN LANE

SCENTED CANDLE

## ICONIC PRODUCTS

---

A design-led approach to creation means our contemporary candle and elegant room spray make an exquisite addition to any room. An icon in-the-making, our compact diffuser perfumes wardrobes or draws, and is also perfect for popping in a car or handbag. With a commitment to timeless architecture, our products are poised to become iconic additions to your living spaces.

## SIGNATURE SCENTS

---

Fall in love with notes of deep fruity liquors, bespoke blends that conjure citrusy evenings and floral country garden moods that beguile. With a nod to iconic London landmarks, Mayfair Affair, Hyde in the Park, Whitehall Gardens and Turnagain Lane are created by world-renowned perfumers and set to be your next fragrance wish-list additions.

«We are dedicated to bringing the art of aesthetics, the appeal of interiors, and the finest scents into the palm of your hand.»

— Katerina Knight, founder of Fine Scents, shares her vision.

## WHAT SETS US APART?

A mission to produce luxurious home products enveloping exquisite scents, all at accessible prices. The design, attention to detail and workmanship that goes into every product is unmatched as we invest in world-class perfumers who proactively seek out the finest scents.

## NOTES TO EDITORS

---

Fine Scents is a new brand in the UK home styling market, founded by Katerina Knight. Katerina has worked tirelessly to find the perfect solution to home fragrance desires that also enhance interior aesthetics. The result is a premium, sophisticated look and aroma, accessibly priced, that crucially doesn't cut corners in the manufacturing process. Prices start from £12.

We take pride in crafting our products in a historic factory located amidst the picturesque hills of the Cote d'Azur. This prestigious location has been a hub for manufacturing world-famous brands, emphasising the exceptional quality and expertise that goes into our creations.

On a journey to becoming more sustainable, we are committed to eco-friendly best practices, where possible. By using recycled and recyclable EVA in the compact diffuser and ensuring candles and room spray are both refillable (refills available to purchase online soon) we're actively trying to minimise our environmental impact. All Fine Scents packaging is recyclable and with minimal plastic.
