

## **Michela Lancione & Giulia Tedesco X Metiu Design**

*Metiu designs for everyone, while being environmentally and socially conscious. Metiu wants to fight for human and minorities rights (LGBTQ+, Black, Bame, disabled) through design, inclusivity in the workplace, workshops, and events.*

*After a brainstorming session, we decided to produce an illustration of a woman that cries rainbow tears. This is to strongly represent both the oppression and the proud contrasting feelings of being part of the LGBTQ+ community in the century we live in. It is unclear if the woman is crying out of joy or sadness. We are humans, we have feelings, we are sometimes sad, and sometimes the happiest word to make sure you don't have to analyse your writing too much.*
