

# window dressing

BY ESSCHERT DESIGN

## Instantly turn your window(sill) into a green oasis

The Window Dressing range from Esschert Design consists of innovative window decoration. The window dressing clamps with rotating tray, window flower pots with suction cup, round and rectangular plant trays and handy telescopic window rods to hang the trays up on, easily fill the window and windowsill with more greenery. The range is available in four trendy colours to suit everyone's interior choice and style. Specially designed for small and narrow spaces.

- ⦿ Modern look
- ⦿ Enlarge the window space
- ⦿ Complete concept with in-store solutions
- ⦿ Knock-down packaging
- ⦿ Attractive gift packaging

Mix & match the colours and sizes for a unique looking, personalised windowsill.

The products in the range allow to efficiently decorate the window, and other places in the house with greenery. Read more about the functionality of the products below and browse through for the specifications and other colors of the complete range.

### ROUND HANGING TRAYS

Window decoration does not have to be placed low or on the window sill. By hanging the plants, the customer creates a green cascade in front of the window. In this way, the line between inside and outside fades. The round trays come in two sizes and four colours. The round planters are particularly suitable for deeper windows.

### RECTANGULAR HANGING TRAYS

With hanging plant trays, even the smallest space can be transformed into an urban jungle. The rectangular variant is both beautiful and practical and fits even better in front of a wider or shallow window. Besides being a tray for plants, it might also work nicely as a spice rack for the kitchen window.

### CLAMP TRAYS

The clamp trays can be conveniently clamped onto any window sill, are easy to use and adjustable in height. Also, the trays can be rotated into different positions. And if there is no window sill present, a clamp will also do well in other places in the house. For example, use them to decorate a table, desk, bookshelf or bedside table.

### WINDOW FLOWER POTS

With the window flower pots, practically any surface is utilised. This makes them useful even if your customer does not have a windowsill at all. And in combination with the other products in the range, the window will soon be covered from head to toe.

### TELESCOPIC WINDOW ROD

The telescopic window rod can be quickly clamped without drilling into walls or window frames. It thus provides a convenient basis for hanging the various plant shelves.

To complement the wide range of products, Fallen Fruits offers a variety of store solutions. With it you can create an attractive visual representation of the Window Dressing range in your store to give your customers the best impression of the range.

The products come in a beautiful gift box. It is a packaging that stands out and matches the style of the line; modern, stylish and practical. The compact and knockdown packaging allows you to place a large number of products on your shelves, but also makes them easy to ship.

The back of the package contains detailed product information and an overview of the entire collection to inspire your customer.

Do you want to showcase Window Dressing in the best and most convenient way in your store? Then use the following promotional tools below.

The mood boards below (for your shelves) are available in two different sizes to best suit your shop.

**PI414XL**  
990 x 990 mm  
39.0 x 39.0 inches

**PI415XL**  
990 x 990 mm  
39.0 x 39.0 inches

**PI416XL**  
990 x 990 mm  
39.0 x 39.0 inches

**PI414**  
990 x 600 mm  
39.0 x 23.6 inches

**PI415**  
990 x 600 mm  
39.0 x 23.6 inches

**PI416**  
990 x 600 mm  
39.0 x 23.6 inches

With the 3-meter shelf plan you can easily display all products from the Window Dressing range. The meter shelves are provided with mood boards and an imitation window. Use a tego shelf and/or a shelf just below the window (as a windowsill) to attach the windowsill clamps. If you do not have dividers, walls or frames available to clamp the rod between, place the telescopic window rod on display hooks that are at least 10 cm long. Mount these above the imitation window. Then hang one or more plant trays on the window rod or hang them directly on display hooks.

This Window Dressing cardboard banner draws attention to your creative shop presentation, shelves or other area where the assortment is displayed. The banner is made in the same style as the packaging and is therefore a recognisable unity. The banner tells your customer something about the product line and its application in an instant. The banner is foldable and therefore quick to set up. Just unfold and press the sides of the banner!

For your website and marketing purposes, we have professional photos and images available, which you can request and download via our FTP server. There is a choice of both mood photography and product photos in low and high resolution.

Also ask for our videos with a short impression of the line and instructions about the window sill clamps. Integrate them in your webshop, online communication or show them on a screen with the products in your shop.
