Here at Love Country we appreciate the beauty of nature and how a scent can create a sense of comfort. We wanted to bring both these passions together.

Our range of scented Aroma Wax Melts, Reed Diffusers, and Room Mists are designed to combine both the finest of perfumes whilst balancing with our love of the beautiful countryside.

Each of our beloved wildlife characters have been chosen to represent a bespoke tailored fragrance. Immerse your senses in evening woodland berries under the stars or relax with summer greenhouse aromas with Rosie Robin by your side. There is a fragrance and atmosphere for every mood.

Why not explore with Curious Hare along the fresh coastline with the sea breeze blowing her ears around!

We firmly believe in sourcing environmentally friendly ingredients. All our bespoke fragrances were expertly blended at one of the finest perfumeries in England and some took over a year to develop.

They are unique to us and are of premium grade throughout. We personally hand pour each itemising the finest soy mineral wax and base oils for a superior scent.
