WONDERWICK LONDON

With elegant glass candles producing a soothing crackle as they burn, thanks to a stylish wooden wick, complemented by coordinating reed diffusers that fill your home with a sumptuous scent as the highly developed fragrance lasts for months, it's a classy collection you'll surely fall in love with!

MAUVE

WARM • CONTEMPORARY • GENTLE

Notes from our designer

Our latest addition to Wonderwick, Mauve oozes with warmth and subtlety. A trending colourway with its neutral and soft blend of pink and grey overtones; a barely there, almost translucent feel, these candles and reed diffusers are perfect for the modern luxe interior setting.

Indulge Mauve in three gorgeous scents:

Ylang Ylang & Elemi
Tonka & Suede
Oakmoss & Jasmine

Scent Spotlight

YLANG YLANG & ELEMI

Vibrant citrus notes of orange, lemon, and juicy grapefruit are mellowed with a hint of aldehydes. Explosive florals compliment these fruits as rose, jasmine, and orange blossom combine with ylang ylang and bergamot. A sandalwood base with vanilla, amber, and musk is lightened by patchouli and elemi.

Scent Spotlight

TONKA & SUEDE

Soft powdery notes of lavender and cinnamon lead into a heart of myrrh and guaiacwood, leaving a deep base of moss, amber, vanilla, tonka, and suede.

NOIR

DARK • SOPHISTICATED • CHIC

Notes from our designer

An all-time favourite, Noir is eye catching, moody and exudes glamour. Incorporating luxurious black wax and deep black glass vessels, this colourway is sleek, strong and uncomplicated. A great focal point or accent for those striking, modern interior designs.

Experience Noir in three signature scents:

Black Pomegranate
Vetiver & Oud
Amber & Lavender

Scent Spotlight

AMBER & LAVENDER

Rich and sophisticated opening notes of bergamot, lemon, tropical pineapple, and fresh apple, mix with nuances of rose and spicy highlights of black pepper. The herbal heart combines classic lavender with rosemary, sage, patchouli, and amber. The musky, sweet base closes with mossy notes.

BLANC

FRESH • ELEGANT • CALM

Notes from our designer

Our very first Wonderwick creation, Blanc is simply timeless. Using creamy white wax paired with a clean and crisp vessel, Blanc is effortlessly complimenting for any interior space. Understating and extremely versatile, this is a truly elegant colourway.

Enjoy Blanc in three classic scents:

Basil & Mandarin
Sea Salted Fig
Coconut & Mango

Scent Spotlight

SEA SALTED FIG

A zesty mix of fig, bergamot, mandarin, grapefruit and peach top notes lead into a heart of jasmine, ginger, and nutmeg. Closing with a base of patchouli and coumarin combined with cedarwood and amber.

Notes from our artisans

We simply love creating our Wonderwick Reed Diffusers, but even more so, hearing the lovely feedback from countless happy customers. Some of our product highlights would have to include:

The four oversized reeds which come with every reed diffuser are the perfect match to compliment our glamorous 200ml diffuser vessel. Not only do they look the part, they help to throw the sumptuous scent further, for months!

We stay true to our strapline, Beautifully British Fragrance, and that is certainly amplified with our Wonderwick Collection. Amazing attention to detail has gone into selecting every fragrance, ensuring that they are derived from natural elements, highly developed and complex, but most importantly, so beautiful you will always be coming back for more.

Unlike candles, you never have to extinguish a reed diffuser, meaning your home will stay beautifully scented all of the time.

Coming the end of your Wonderwick fragrance and needing a perfectly portioned top up? Our 200ml diffuser refills are the answer!

All Wonderwick Reed Diffusers have approximately 18 weeks of fragrance time.

Our Wonderwick Candles are truly a work of art in every aspect, here are just a few of our favourite details:

The classy, contemporary glass vessels, sourced and painted in the UK, glow beautifully as the candle burns, highlighting the glossy overprint as the flame shines within.

We only use natural crackling wicks sourced from FSC certified mills, using the finest wood. Our wicks produce a relaxing, warming ambience similar to an open fireplace and we've spent hundreds of hours fine-tuning that perfect burn and flame shape.

Our natural wax is best in class, meaning that you will always get a full, even burn from your candle and optimal fragrance throw!

Have peace of mind that your candle is a true piece of British artisanship, every candle is lovingly handpoured and finished in our facility based in Hampshire.

All Wonderwick Candles have 50 hours of fragranced burn time.
