PoM's Women's Ethical Accessories range

GIFT OF THE YEAR

PoM ™

PEACE OF MIND

We believe that accessories should be made to last and these past few years we've been striving to include more recycled and sustainable materials in our collections, making them even more environmentally friendly. Fast fashion is a thing of the past and we're all for making accessories that our customers can enjoy season after season.

Our recycled scarf collection uses a fabric called Repreve, which is made from recycled plastic bottles. We've been using this innovative yarn to create beautifully soft and stylish scarves, in both lightweight and winterweight!

Each year, billions of plastic bottles are destined for landfill, or find their way into our oceans. Repreve aims to change this, one bottle at a time, by re-using bottles and giving them a second life as super soft yarn.

We have chosen BAMBOO viscose for our socks, as this is a completely renewable yarn. Not only is it good for the planet, but also for your feet as it is highly breathable.

Our Vegan leather bags have also been a positive step in supporting those of us that choose to adopt a lifestyle less reliant on animals, all the components of our bags are vegan friendly and they are super stylish and affordable too.

We want people to buy our accessories as sustainable gifts for their eco-aware friends and family members, or just bring some sustainable style into their own lives. Choosing ethical products from the PoM collection will up your environmental credentials, without compromising on style.

We've not forgotten about the packaging too…We have ditched the plastic, each scarf comes wrapped in a recyclable paper wrapper that is not only attractive but gives the end-user all the information they need about the products sustainable background.
