

### **Instruction Manual for Flexilight rechargeable**

## **Charging Instructions**

Connect type-C USB cable to the port at the top of the head of the Flexilight. Then connect the other end of the cable to a standard USB power supply or computer port.

Whilst charging, the indicator light will blink red. Once fully charged, the indicator light will turn blue.

# Usage

- 1. Press button on head once for low level light, again for full power light, and once again to switch off.
- 2. Insert Clip on main body of product into a book and adjust the flexible neck to a position that illuminates fully the pages of the book you are reading.

#### **Technical data**

Model	8000
Built-in Lithium Battery	Li-ion 3.7V / 200mAh
Power Source of Charging	5V/0.5A
Color Temperature Range	3500K ~ 4000K
Color Rendering Index	>80
Duration	Approx. 6 hrs high, 11 hrs low
Dimensions	163.2 x 34 x 13.1 mm
Net Weight	32g

#### Caution

- 1. This product is very safe. The inner circuit protects against overcharging, and short circuiting. The cautions described are for optimal function and safety.
- 2. Charge the battery by using a 5V 0.5A charger (included).
- 3. Do not charge continuously for over 24 hours.
- 4. Store product in a dry and cool place.
- 5. Do not place in fire.
- 6. Please charge the battery to at least 70% after not being used for a long time.
- 7. It is normal that the battery will be degraded after a long period of time.

#### Maintenance

- If the contacts on the cable become dirty, clean with a dry cloth.
- Avoid any sudden impact.
- The product should be lightly cleaned regularly.
- Any changes made to the specifications or design may not be reflected in this manual.

As this product is not waterproof, please take measures to protect the product in a rainy or damp environment.

Do not use this product in the presence of flammable gases, chemicals and other similar materials. In rare circumstances, these materials may be sensitive to the strong light emitting from this product and fire or electromagnetic interference may result.

As this product has a built-in lithium battery, do not dissemble. Do not store or use the product if the ambient temperature exceeds -10°C to 40°C. Please charge with cable included or equivalent within the defined voltage indicated above.
