

# PARADE

Parade is a sensational new collection from The Art File's very own in-house designer Claire Mayes. This clever range comprises of 3 different card constructions, Zig Zags, 3D Box cards and 3D fold outs, all of which are packed with additional finishes including hot foils, UV highlights and die cuts. We are launching the collection with 14 designs which include Birthdays and Occasion cards.

Each card and envelope comes with a protective backing board for posting, and everything is then packaged in a colourful display envelope, with photograph, so customers can see exactly what they are buying. What's more the packaging is made from 120gsm paper so its completely recyclable.

We are proud to say that the entire collection is made here in the UK.
