# OUR STORY

For many years now, my family and I haven't had any nasty chemical in our bathroom. Especially not in our skincare products. I have sensitive skin and it is really important to me to use and work with only the highest quality natural ingredients. Your skin is your largest organ and it is essential to take care of it and spoil it with amazing ingredients from the mother nature.

I love making these amazing wellness and skincare products and experimenting with new, exciting ingredients so I knew that sooner or later I will be coming with skin-loving body, face and hair care products and I will make them available for everyone. This is how The Eden Collections was born. A wonderful at home spa experience with all the luxury and quality that your body and mind deserve.

# OUR MISSION

Our mission is to create and provide healthy, effective wellness products designed to improve the skin health, as well as improve the overall lifestyles of our clients. We believe that everyone deserves only the highest quality clean ingredients in their skincare products and also the selfcare routine they bring with themselves. Thank you for helping people to throw away their chemical-filled bathroom products and change them to ours.

*payment*

You can pay by bank transfer after I send you an invoice in pdf format or I can set up a PayPal invoice.

I ask all of my wholesalers and stockists not to sell my products below my retail price.

*stock availability*

All of my products are handmade by me and I do not keep a big amount of stock. Therefore it takes around 2 weeks while I can post the products for you. Soaps need to cure for 4 weeks, therefore lead time is 5-6 weeks with soaps. When we discuss your queries we are going to discuss the estimated time of the arrival.
