Product data sheet.

DIY Bee Hotel Letterbox Kit

Build a home for solitary bees or gift one to a nature lover in your life!

Designed in-house by Architectural Technician and bee enthusiast Jacob Powell 

Made from sustainably sourced Italian Panguaneta poplar wood, this kit is designed to be letterbox-friendly and constructed at home to provide a safe space for female solitary bees to build nests and lay their eggs.

Key product features:

- Plastic-free, no glue, no mess!
- Buildable in under 20 minutes
- Packaging made from 70% recycled materials and FSC-certified cardboard 
- Replaceable 150mm length bee nesting tubes with side door & key
- Instructions and installation checklist included
- Step-by-step video accessible via QR code 
- Made in the UK

Red mason bees nesting in the tubes of the DIY Bee Hotel. The mud is sealing the entrance to the nest with their babies inside!
