

STITCHING ME SOFTLY 2021

The last few months have seen a huge surge in demand for fun activities that we can all enjoy from the comfort of our own homes.

We have found the Crochet Basket Duo Kit and the Friendship Bracelet Kit to be particularly popular, mirroring the trends for home improvements and things to entertain children.

This year we are introducing some new colour options for the Crochet Basket Duo Kit and Easy Peasy Crochet Pot Kit. Increasing the options and giving customers even more choice when it comes to how to accessorise their living spaces.

The two main elements that we focus on when designing new products are the quality and sustainability of the materials included and the level of detail in the instruction sheets.

For us it is important that every customer is able to pick up a kit, learn a new skill, enjoy the process of some calm mindful crafting and be delighted and filled with pride once they have finished.

The items themselves are all designed to be used and enjoyed over and over again, and the packaging is all easy to recycle.

Recycled Cotton

The main ingredient for a lot of our craft kits is a wonderful recycled cotton braided cord produced by Polish brand Bobbiny.

Bobbiny braided cords are made from textile waste that is saved from entering landfill, broken down into individual fibres and then woven into the finished cords.

The manufacturing process uses no additional water or dyes, making it as environmentally friendly as possible.

The cord is hard wearing yet soft to the touch, which is perfect for using to create beautiful textile jewellery and homewares.

Bobbiny cords carry Oeko-Tex certification.
