# PUZZLE POST SPACE AGENCY

---

Dear Friend,

Astronaut Alice here – I hope this letter reaches you OK. I really need your help!!

I work on the Puzzle Post Space Station (PPSS) and we recently intercepted a message meant for you!

No need to panic, stuff like this happens all the time. The PPSS is in a low orbit around the earth, and lots of radio waves carrying messages from earth pass us on their way to other satellites. Normally we ignore them, but for some reason we picked up your message.

We don't want anyone else to read your message, but I won't be back on Earth for another 9 months and that's a long time for you to wait! So I sent your message to the flight centre on land, and have hidden it behind a set of puzzles.

In this envelope, there are 7 puzzles you must solve in order to unlock the secret message. The answer to each puzzle is a number between 1 and 10. You can access your message at [www.puzzlepost.com/space-station](http://www.puzzlepost.com/space-station), and you will need the ID **TDFLVV2G**

Start with today's To-Do List, it's in the envelope... I've also sent you a special pencil to use. Do you know that pens don't work in Space??

Good luck!  
Astronaut Alice
